Pleasant Prairie, WI. 53158

Subject: Raising Lake Michigan Lake Levels.

Please do not raise our lake levels.

It will affect a lot of houses in my neighborhood. Just 2 weeks ago we had a terrible storm that took away a lot of my bluff and beach.

The ordinary high water mark is 584.50 and my yard grade N/S is 588.2 with the top of my foundation about 589.

A raise in lake level (artificial) would

be devastating to my property. Thank you.
Let nature take its course !!!
R. Barnato
