To Whom It May Concern:

I'm writing to let you know that higher lake levels in Lake Michigan would do much destruction to my property and that of my neighbors. The last high levels in 1986 and 1997 caused a lot of destruction to the dunes in front of my property. Many people along our beach had severe erosion and the water threatened to undermine the homes. Seawalls had to be installed at a tremendous cost just to stop the water from coming into our homes. Please don't let the water level rise again as this will cause much stress and cost to all of us on the Lake Michigan shoreline. Thanks in advance for your consideration.

Sincerely,

Steve Buth

Grand Haven Michigan
